## Overview

---

EVO's first day-cruiser is sleek as usual with a larger walkable area around the helm station and the signature extensible sundeck. Like a marine sports car, the R4 Walkaround is strongly influenced by the automotive world, with some distinctive features that define its bold silhouette, such as the steel T-Top and the carbon air inlets on both sides of the hull. All the controls and navigation systems are integrated in the smooth lines of the console, where the steering wheel, the Volvo Penta IPS joystick and two 12" touchscreens allow for an exciting steering experience. Multidimensional bow: The multi-faceted bow has a spacious sundeck with cushions for two, high end speakers integrated in the windscreen, the walkaround surface and a hydraulic hatch with hidden anchor, fenders and even a hand shower. The walkable surface is large enough to stare at the sea from different points of view. The T-Top and awnings provide shade to the dinette area and to the customisable kitchen with induction hobs, Teppanyaki plate or barbecue and 180 L ice box. Just a tap and the beach area becomes +40% larger with the hydraulic XTensions bulwarks, leaving the ordinary to turn into a 270 sq. ft. beach area you can arrange as you like by moving the elements around. The Transformer platform can get you even closer to the water, creating an eye-catching terrace. Powerful Engines Inside: The Volvo Penta IPS 600 (2 x 435 hp) engines and the 18° deadrise angle of the hull push the EVO WA to a maximum speed of 38 knots and a cruising speed of 28 knots.

## Basic Information

---
