SPECIFICATIONS

Overview

FANTASEA BLUE is a carbon custom-built cruising yacht capable of high performance without sacrificing lifestyle and comfort at sea or at anchor. Drawn from the pen of **German Frers**, the hull takes up the lines of the Swan 80 but with an open transom and the typical automation of a Wally. Her build was entrusted to Barcos Deportivos, the shipyard in Tarragona, Spain, that specialises in high-end construction and maxi yachts.

Designed for long-distance cruising, Fantasea Blu is engineered for easy single-handed sailing, thanks to full automation, in-boom furling mainsail and hydraulically operated self-tacking jib.

The highly technological design has not neglected the cruising aspect, paying the utmost attention to meeting the expectations of a leisurely and exclusive cruise with surprising outdoor spaces for a yacht of its size.

A bimini is mounted on a carbon fibre structure sheltering the large cockpit to ensure maximum comfort for guests. Under the bimini, a large al-fresco area offers comfortable seating for 10-12 guests around the beautiful lacquered wood outdoor table that features outdoor refrigerators perfect for refreshing drinks.

The lightness of a **raised saloon** and classic joinery characterise the interior of Fantasea Blue, whose configuration is designed to accommodate up to 7 guests in 3 cabins: a master suite forward and 2 double cabins aft, all with en-suite facilities. She can carry up to 2 crew for a relaxed and safe sailing experience.
