Overview

2023 Arksen 28 Arksen 28 - Aluminum Hull, Safe, Comfortable, Luxury Boat The Arksen 28 is one of the latest models in the Adventure Series, designed to get you outdoors and into the wild. This vessel is a perfect day boat for those who want to be driven by their own schedule, not by the weather. Set off with the exceptional seakeeping aluminum deep-V hull, that makes for a safe and stable ride, the 360 views from the saloon and helm station provides panoramic views on the way to and at anchor in your chosen destination. The thoughtful design with sculpted aft fenders for added protection means you stand out from the crowd, but with the range and capability that you don't have to see another soul. Complete with a daybed, pantry unit and toilet, the Arksen 28 equips you with all the facilities you'll need for that day's adventure, wherever it takes you. So whatever trip you have planned, you're in safe hands, with all the comfort you would need.

Specifications:
Length Overall: 28'1" Beam: 8'4" Draft to Props: 2'11" Passengers: 8 Berths: 1 day bed Range: 200+nm Engines: 1 x 400hp Mercury Fuel Capacity: 80 Gallons

Welcome to the all-new Adventure Series designed to meet the high expectations of accomplished explorers and first-time fanatics. Our new range combines the tough and rugged seakeeping ability with an elegant interior and finishes expected on much larger yachts. We want to connect people to the ocean, and what better way than on-board an Arksen Adventure Series vessel, built on a platform specifically designed for a multitude of conditions. Our vessels are built for exploring, be it a secluded anchorage away from the crowds or leaving the dock before sunrise to catch the first perfect wave, we get you there in comfort no matter the weather. For the bold. At Arksen, we design for people who like to lead from the front and forge their own paths. We create tools for those who want to push the boundaries, who are bored with the mundane and seek new experiences and different ways to achieve them. We build for the bold and intrepid explorer and they would expect nothing but the best equipment to rely on. Taking comfort to new heights. There is more than meets the eye with these vessels, as soon as you step inside you are enclosed in a cozy sanctuary from the weather outside. The heating keeps the temperature just right and the high-quality upholstery and finishes invite you in after a day of activities. The 360 views through the wrap-around windows emphasize the sense of space and ensure anyone onboard can feel fully immersed in your chosen destination. This means that no matter the weather you can still get out there and enjoy your time on the water, along coast lines or up cliffs. Your choice, your adventure, any time.

Versatility. Intelligent use of space is synonymous with the Arksen vessels. As with our Explorer Series we know that by maximizing the space on board for versatile storage means maximizing the enjoyment of time on board. The flexible storage solutions offered by the Adventure Series means that you no longer have to choose between sports, you just have to decide how many you can fit in one day. Up before sunrise and out after dark. The best waves, the perfect wind or the finest catch doesn't always happen during sociable hours or in the calmest of conditions. Thanks to their safe and stable platform, the adventure series can comfortably get you out and explore the oceans while others still sleep. The exceptional performance of the hull provides a fast, fuel-efficient and stable ride even in the toughest sea-states. Driven by Purpose. An important part of our vision is to ensure we are inspiring the next generation of

explorer, scientist, and conservationist, and that's why at Arksen, we support projects which empower people to better understand, protect and nurture the world's oceans. Working together with our partners, we formed Yachts for Science; a project which brings together yacht owners, and marine scientists with the aim of providing easier access to oceans for vital research. You can learn more about the other pillars of Arksen Philanthropy.
