SPECIFICATIONS

Overview

2024 Arksen 30 Arksen 30 - Aluminum Hull, Safe, Comfortable, Luxury Boat The Arksen 30 is an excellent choice for long weekend adventures; equipped to sleep four and with the option of up to six if you opt for the canvas sleep pod. It provides quality cooking facilities, and you can easily take an abundance of gear, ensuring you are substantially stocked for the day ahead after a comfortable sleep. With all the conveniences you would expect from a premium offshore vessel, this is your perfect adventure companion.

Specifications:
 Length Overall: 31'2" Beam: 8'2" Draft to Props: 2'11" Category: B 6 Passengers, C 10 Passengers Berths: Sleeps up to 6 Range: 230+ nm Engines: 2 x 225hp Mercury Fuel Capacity: 2 x 60 gallons

For the bold. At Arksen, we design for people who like to lead from the front and forge their own paths. We create tools for those who want to push the boundaries, who are bored with the mundane and seek new experiences and different ways to achieve them. We build for the bold and intrepid explorer and they would expect nothing but the best equipment to rely on. Taking comfort to new heights. There is more than meets the eye with these vessels, as soon as you step inside you are enclosed in a cozy sanctuary from the weather outside. The heating keeps the temperature just right and the high quality upholstery and finishes invite you in after a day of activities. The 360 views through the wrap-around windows emphasize the sense of space and ensure anyone onboard can feel fully immersed in the chosen destination. This means that no matter the weather you can still get out there and enjoy your time on the water, along coast lines or up cliffs. Your choice, your adventure, any time.

Versatility. Intelligent use of space is synonymous with the Arksen vessels. As with our Explorer Series we know that by maximizing the space on board for versatile storage means maximizing the enjoyment of time on board. The flexible storage solutions offered by the Adventure Series means that you no longer have to choose between sports, you just have to decide how many you can fit in one day. Up before sunrise and out after dark. The best waves, the perfect wind or the finest catch doesn't always happen during sociable hours or in the calmest of conditions. Thanks to their safe and stable platform, the adventure series can comfortably get you out and explore the oceans while others still sleep. The exceptional performance of the hull provides a fast, fuel-efficient and stable ride even in the toughest sea-states.

Driven by Purpose. An important part of our vision is to ensure we are inspiring the next generation of explorer, scientist, and conservationist, and that's why at Arksen, we support projects which empower people to better understand, protect and nurture the world's oceans. Working together with our partners, we formed Yachts for Science; a project which brings together yacht owners, and marine scientists with the aim of providing easier access to oceans for vital research. You can learn more about the other pillars of Arksen Philanthropy.
