SPECIFICATIONS

Overview

The RANGER TUGS R-29 CB, also known as the Command Bridge, not only includes the groundbreaking characteristics they've included in our elegantly crafted R-29 S design, but also introduces the luxury, convenience, and thrill of a command bridge. The newly-designed command bridge provides seating for four and comes fully equipped with a set of digital controls including VHF, front and rear thruster controls, Volvo engine controls, remote-operable spotlight, illuminated compass, and Garmin autopilot and Navigation system. Climbing the teak steps in the rear cockpit area permits access to the bridge. Additionally, the bridge is fitted with practical grab rails for safety, 12v power, cup holders, and waterproof speakers.

The more contemporary aesthetics of the R-29 CB include a front window with a sleek curvature and a glass atrium overhead which offers unrivaled visibility from the helm station and salon area. A cleverly designed seating setup in the aft cockpit includes a seat that can be switched around, seats that can be jumped over on either side and a teak dining table for open-air dining. An additional seating option in the cockpit can be found in the cabin's opening bulkhead that houses a reversible seat and integrates the external environment inside.

The 2025 Ranger Tugs R-29 CB - can hold a maximum of six adults in its three individual berths, including the forward island berth that comes with an en-suite toilet. The R-29 is fueled by a 320 HP Volvo Inboard Diesel engine that is strategically placed completely outside the cabin to facilitate tranquil cruising. As a standard offering, stern and bow thrusters along with wireless remotes add extra convenience and simplicity to docking.
