SPECIFICATIONS

Overview

Explore the seas in style aboard this 2008 116' Canados Flybridge, situated in La Paz, Mexico. With its spacious layout and luxurious amenities, this yacht offers the perfect blend of comfort and adventure for unforgettable cruising experiences.

The Canados 116 is the flagship of the Canados flybridge range and is equipped with two MTU engines, each developing a power of 2400 hp, which allows a maximum speed of 29 knots and a cruising speed of 25.

The exterior design of the yacht was developed by the yard Technical Department, while the interior was designed by Salvagni Architetti, a Rome-based design studio. The living, the independent dining area showing a table by Saarinen and chairs by Mies van de Rohe, and the kitchen by Boffi are located on the main deck, while the lower deck is destined for the owner and his guests, with the owner's suite, a VIP and two twins, all with ensuite bathroom. The three crew cabins are located forward on the lower deck and are accessed from the kitchen.

The elegant interior design combines contemporary style with some details evoking former times, as for the sofas and the taps and fittings in the bathrooms. Polished ebony and matt-whitened oak were selected for the furniture, with natural bamboo for the floor. The wheelhouse located forward is a separate area on an independent deck, the flybridge was designed to enjoy open-air sailing and to relax.

• Overhaul of main engines and generators. • We have approximately \$100,000 USD in spare parts in stock. • New home automation system. • New navigation electronics. • New Inmarsat system. • New outdoor furniture. • New indoor dining room table and chairs. • New powder room in Calacatta marble. • New SAE frequency converter. • New Sonos system. • Overhaul of all kitchen appliances by Miele
