SPECIFICATIONS

Overview

2004 Universal Diesel Engine - only 600 hours w / Autopilot

Designed as a high performance, off shore, racing/cruiser. Still One of the BEST for today!!!

The updated 2004 Universal 20HP Diesel engine drives a 12 x 8 propeller through a 1" stainless steel shaft. Located off-center to eliminate torque, the engine is set in the forward end of the main cabin to concentrate its weight (together with fuel and water tanks) over the center of ballast and reduce pitching moment. Because the engine is mounted on top of the lead ballast, it is remarkably quiet, free from vibration, and readily accessible.

Basic Information

Category: Cruising Sailboat

Model Year: 1977

Year Built: 1977

Country: United States

Dimensions

LOA: 30' (9.14mm)

LWL: 24' 3" (7.39mm)
