SPECIFICATIONS

Overview

The “Panorama” motor-yacht, designed in steel with an aluminum superstructure, with its 499GT guarantees the ability to make long journeys in total safety. The design without visual barriers and the elegant fluidity between exteriors and interiors create a continuous and natural dialogue in all areas, characterized by large volumes and structural details such as the heights of the ceilings, large spaces and large windows. The interiors reveal a refined and enveloping atmosphere thanks to a careful selection of precious and natural materials, such as wood in light tones, stones and rough metals.

The Panorama superyacht can accommodate up to 12 guests, who can stay in the four large and bright suites on the main deck; in the VIP cabin on the lower deck, which can be transformed into a comfortable TV room, sided by a perfectly equipped gym area. The owner’s area on the upper deck enjoys an open view on three sides and a view of the private bow deck to relax at any time.
