SPECIFICATIONS

Overview

One owner ST44 that is well equipped with updates and upgrades now available. The main upgrade to this ST44 is the electrical system, it transformed this boat into a full off-grid cruising/diving vessel. You can now run any 110v appliances without starting the generator, you can run AC in the master bedroom all night on the batteries. With solar power the boat can stay almost indefinitely at anchor while running the 5 on board fridges. The system integrates the generator, so it starts automatically when batteries are discharge at 30% and stops at 99%.
