SPECIFICATIONS

Overview

Ocean Voyager 64 Offer a memorable experience with a 2023 Ocean Voyager 64 catamaran, a vessel with a maximum capacity of 92 passengers. Its shape, with a width of 10 meters, makes it even more stable than other boats of its kind. The boat is specially designed for touristic events. The vessel is particularly comfortable, providing the feeling of being on a floating runway.

The Ocean Voyager 64 is a day ship, which means that there are no cabins, but only a spacious kitchen area, the captain's cabin and of course two very comfortable toilets for the passengers. A particularly important feature is the showers, which are available for the passengers. As for the dives, there is a large slide and a very comfortable ladder (not wind-stairs) for easy access to and from the water. There are also nets on both sides of the boat, providing an ideal area for sunbathing and longer dives. The ship is completely silent while sailing, allowing her passengers to enjoy music playing from the large external speakers.

Basic Information

Category: Daysailer

Model Year: 2023

Year Built: 2023

Country: Greece

Dimensions
