SPECIFICATIONS

Overview

The core concept underlying the new Revolver 44GT is the idea of transferring the qualities of a *Grand Turismo* (GT) car to the sea. The result is an elite, high performance vessel with exciting sporty lines, comfort and safety, and an optimal range for long crossings.

The Revolver 44GT showcases a unique and revolutionary mix of power & cruise, under the banner of sophisticated design. It is the perfect balance of luxury, avant-garde technology, and innovation. The result is simply breathtaking!.

The new Revolver 44GT is first and foremost a powerful, high performance boat. However, it is not a "normal" powerboat; it is an impressive display of raw power and speed, great range, functionality, and comfort. All of this has been made possible by the technical choices made by the Revolver team, starting with the two Cummins diesel 550 HP engines paired with Arneson Surface Drives.

The GT has distinctive features throughout including the rear air vents with cut reminiscent of high-end cars from the 1960s and the bow with LED lights built into the protective and powerful fender rail that defines the profile.

This is the original Demo Model of the Revolver 44GT. The boat is still property of Revolver Boats and has never been registered/titled. Turnkey with low hours on the main motors offered at a substantial price reduction. **Original MSRP 925,000 EURO. Offered at 295,000 EURO.**

Basic Information

Category: high performance

Sub Category: High Performance

Model Year: 2015

Year Built: 2015

Country: Italy
