SPECIFICATIONS

Overview

An Excellent option for those looking for the combination of the versatility of a metal and a size that can still fit most marinas.

"MY Tati" is seriously looking for a new owner and being sold in turn-key condition.

Exportation from Brazil is an easy process and the yacht can sail out by it's own means or be shipped.

Engine Hours: +/- 4,000

Generator Hours: +/- 4,700

About the Model:

MCP's compact motor yacht, the Classic 76, unfolds an unparalleled universe of possibilities within its size. Boasting an elegant and timeless design, this vessel features four spacious social suites and a generously sized "full-beam" saloon, providing comfort and autonomy for those seeking safety and the liberating expanse of the open sea. At extended cruising speeds, the Classic 76 showcases impressive stability and remarkably comfortable sailing, with a modest fuel consumption of just 70 liters of diesel per hour.

Conversely, its inherent lightness endows it with versatility, courtesy of a semi-displacement hull meticulously crafted by MCP Yachts. This design ensures both performance and agility, allowing the yacht to achieve a top speed of up to 22 knots.

Located at the stern, a spacious and well-appointed crew area enhances comfort and privacy on board, catering to the needs of those responsible for the vessel's operation. The inclusion of double-bottomed tanks distinguishes the Classic 76 with the largest water and fuel storage capacity available in the market. Beyond contributing to this remarkable capacity, the double-bottomed design enhances stability and ensures watertight safety in the event of a severe collision with a rigid floating object. A meticulously engineered Skeg positioned on the centerline serves multiple purposes, providing protection for the propulsion assemblies, facilitating safe grounding, and enhancing course stability for open-sea navigation.

The MCP 76

Basic Information

Category: Semi-Displacement

Sub Category: Semi-Displacement

Model Year: 2009

Year Built: 2009

Country: Brazil

Dimensions

LOA: 75' (22.86mm)

Beam: 18.79

Min Draft: 4' 8" (1.4mm)

Max Draft: 5' 7" (1.7mm)

Speed, Capacities and Weight

Cruise Speed: 12 Knots Kts. (14 MPH) **Cruise Speed Range:** 3000

Max Speed: 16 Knots Kts. (18 MPH)
