SPECIFICATIONS

Overview

"Obviously a Rustler, from any angle! From her gentle 'spoon' bow, to her perfectly judged transom overhang. The silhouette above and below the waterline, is pure modern Rustler. Designer Stephen Jones has provided a fast hull and easily managed sail plan, combined with an accommodation layout which combines space and comfort with safety and seaworthiness. The forward hull shape provides the 37 with a gentle motion when going to windward in a choppy sea, without the discomfort of slamming into the waves. A lead antimony keel which is full encapsulated provides a low center of gravity and a correspondingly stiff boat. The keel itself contains a deep bilge which prevents any water from running into the accommodation when the boat is heeled. A large semi balanced rudder supported and protected by a solid skeg makes the new Rustler a safe and easy boat to handle under sail or power – the overall effect is that the boat will maintain directional stability without the constant attention to the wheel that narrower fin keel designs require." Rustler Yachts, LTD "Wings" equipment includes a Carbon Fiber Mast, Hydrovane self-steering system, Spectra water maker, seven solar panels, Raymarine Hybrid Touch multi-functional displays at nav station and helm. Moored on our docks and shown by appointment. Please note this asking price is firm.

Basic Information

Category: Cutter

Model Year: 2015

Year Built: 2015

Country: United States

Dimensions

LOA: 37' 4" (11.38mm)

LWL: 29' 9" (9.07mm)
