SPECIFICATIONS

Overview

The more minor sister to the 98 Ocean Explorer, the 78 has the same features but in a slightly smaller boat. This boat results from an international collaboration of designers and architects under Howard Chen's design team leadership. Working closely with renowned Dutch architect Guido De Groot and a group of International consultants, they have developed a contemporary take on the long-range yacht while capitalizing on builder Jet Tern Marines' quality construction and reputation for experience and innovation in the displacement yacht sector.
