ХАРАКТЕРИСТИКИ

Обзор

Custom built Seaview 48 is an amazing option for our crewed charter program, bareboat program or for private use. A new 48 foot catamaran for under \$800 is amazing. When you consider it is far better built than the "production boats", customizable - including hull color, cushions, fabrics, counters and wood - this is truly an amazing opportunity. Seaview 48 catamaran boasts impressive specifications, measuring 14.7 meters in length, 8.02 meters in beam, and featuring a draft of 1.5 meters. With a generous main sail area of 80 square meters complemented by a 50-square-meter foresail, this vessel seamlessly merges modern maritime technology with timeless sailboat aesthetics. It excels in both stability and long-range sailing performance, making it well-suited for Class I navigation zones. Additionally, optionally equipped with an automatic steering system operable by a single person and a 48KWH lithium iron phosphate energy storage battery catering to the electricity needs for air conditioning during 6-8 hours at night, Seaview 48 stands out as a leader in its class. Foredeck of Seaview 48 is equipped with a trampoline and features a fully enclosed anchor chain locker and a concealed anchor machine, ensuring a worry-free and exceptional sailing experience. Design of the sunshade (optional) on foredeck allows for seamless push-and-pull storage. When raised, it shields from direct sunlight, providing a refreshing sea breeze experience; when retracted, it minimizes outdoor space occupation, offering a panoramic view. Moreover, this area is furnished with an open-air sea-view projection private cinema (optional), delivering an unparalleled visual indulgence. Aft deck is equipped with sofa and table, providing comfortable seating for guests. Sliding kitchen window ensures seamless connectivity to aft deck, allowing owner to enjoy cooking while engaging with guests. Hydraulic swim platform (optional), serving as a flexible outdoor space, expands social area when raised and integrates with diving platform when lowered. Flybridge is a versatile outdoor space with a barbecue, dining table, and sun lounges, serving as a perfect dining and sunbathing area. Solar panels (optional) installed on hardtop can convert collected solar energy into electricity, providing power for daily living needs on catamaran. Salon of Seaview 48 is embraced by expansive glass windows, allowing natural light to flood in from all directions. Dual-sliding glass doors at front and rear encourage seamless transition, enticing guests to explore enchanting allure of sea on both foredeck and aft deck. Open kitchen acts as welcoming focal point, bringing friends and family together to enjoy cooking while engaging in social interactions. Lower deck has spacious suites with comfortable beds, private bathrooms, and ample storage, meeting diverse needs. Meticulous design ensures efficient use of space, emphasizing both comfort and intricate details for luxurious onboard experience.
