SPECIFICATIONS

Overview

Delivered in November 2021, Resilience was built for an experienced yacht owner and designed to appeal to the wider charter market. With a roomy 12 metre beam and the volume of many 70 metre yachts, she offers a highly flexible guest accommodation plan in up to 8 guest cabins, a spacious three-side opening beach club with gym, Owner's office, massage/spa area, outdoor cinema, extra observation deck, and both a countercurrent pool and 12 person Jacuzzi. The extra beam in the hull also makes her very stable both at anchor and underway. She is exceptionally quiet and vibration free, making it difficult to tell when she is underway without looking out of the portholes. Noise levels in the Master cabin are a mere 43dB when underway at 12kts, and even the noisiest guest cabins next to the engine room only measure 46dB in the same conditions, which is quieter than many other vessels are at anchor and allows for comfortable night-time cruising. Designed with typical Italian flair by Enrico Gobbi, the interior is decorated in a neutral but very luxurious palette, with feature pieces in backlit onyx and marble and accents of stainless steel throughout. This design creates practical and flexible spaces that are calming and work well during the daytime, but also come alive at night owing to the incredible indirect lighting plan. Both the main deck and the sundeck are designed as "inside-outside" areas, where sliding doors which completely recess can transform an inside space into an outside space with a touch of a button, while still allowing them to be air conditioned when desired. This allows an Owner and guests to enjoy the yacht whatever the maritime weather brings. There are also multiple areas for dining around the yacht, providing some variety of dining venue for those longer trips. You can dine on the main deck aft, bridge deck aft, and on the sundeck. The sundeck is another well thought out layout, and is where you'll find a mosaic-tiled spa pool with sofas on either side, and a circular fire pit and a barbecue area aft. It is also perfect for more casual BBQ type dining, with the Chef cooking dinner in front of the guests. Above the sundeck is also an extra deck which most 65 metre yachts don't have, and which makes an ideal hide-away. Indeed one of the strengths of the yacht is the ability for different groups of guests to find their own corner.

KEY FEATURES

- Highly flexible guest accommodation in up to 8 cabins
- Master suite with twin fold-down balconies
- VIP cabin on the upper deck with private terrace
- Separate Owner's Office on the upper deck, also with private terrace
- Enormous beach club, gym and spa area
- Countercurrent pool & custom 12-person mosaic jacuzzi
- Outdoor cinema
- Extra observation deck above the sundeck
- Stunning Italian interior design and indirect lighting plan, looks exceptional at night
- Excellent charter record
