SPECIFICATIONS

Overview

Welcome to ACALI, the finest example of the WiderCat 92—a catamaran like no other. At just under 40 feet wide, she's the widest yacht Wider Yachts has ever built, and every inch of her 28-meter frame is designed to impress. As the first multihull vessel from the Italian shipyard, ACALI combines cutting-edge technology, sleek design and expert craftsmanship to create a truly extraordinary yacht.

From the moment you step aboard, it's clear ACALI is something special. Her futuristic exterior, designed in collaboration with Luca Dini, features bold, wide steps with chunky treads, making it easy to move between decks. Her aft deck is the perfect spot for casual alfresco dining or cocktails under the shaded overhang, offering a cozy, welcoming space for guests to gather.

One of ACALI's standout features is her exceptional interior volume, thanks to her impressive 12-meter beam. The forward section of the main deck is devoted to the owner, offering a massive private retreat with a foredeck lounge that spans nearly half the deck. The cabin itself is an oasis, complete with a central bed for easy movement, a spacious en-suite with beautiful views and elegant touches like leather accents. Step outside to your terrace and take in the uninterrupted views in seclusion—this is what yachting was made for.

ACALI offers accommodation for up to eight guests across four beautifully appointed cabins, with two stunning VIP suites at the aft of each hull. These cabins are spectacular—each with its own drop-down balcony that transforms into a waterside terrace, giving guests direct access to the beach club. Imagine waking up and diving straight into the sea from your private deck. There's also a fourth cabin with twin beds, complete with the same refined details and chic styling.

Her interior is striking, featuring a bold color palette and dark flooring with asymmetric patterns that echo her exterior design. The main salon is spacious and modern, with edgy touches that showcase Wider's commitment to innovative aesthetics. Upstairs, the upper salon offers a more intimate spot to relax, whether you're enjoying a nightcap or catching up on a favorite show. And don't miss the expansive bridge deck aft, with its massive bar and plenty of seating—perfect for entertaining.

ACALI continues to impress on her exterior decks. The foredeck sunpad is an ideal spot for soaking up the sun, while the 67-square-meter beach club is a water lover's paradise. With fold-down bulwarks and space for water toys—including a 4.5-meter tender and a Jet Ski—this is where you'll want to spend most of your time. The transom hatch even transforms the tender garage into an extended swim platform, providing endless options for fun on the water.

ACALI is not just about luxury; she's also incredibly advanced. Her construction was overseen by a highly qualified and renowned superyacht industry surveyor and her hybrid propulsion system, paired with 170 square meters of solar panels, allows for eco-friendly cruising. She can even run in full-electric mode, offering silent, vibration-free navigation. Thanks to her smart battery management system, any excess solar power is stored to recharge her battery pack for future use, ensuring you can enjoy quiet time at anchor while still maintaining all the comforts onboard.
