Overview

When Charm and personality inspire your next route

56 FLY – Charisma is a proven mix of engineering innovation, Italian design and a passion for details: it stands out with its personality, comfort and versatility, captivating lines and on-board living space, for you to experience the pleasure of the sea freely and to fully enjoy its boundless panorama.

“Charisma” encapsulates the essence of 56 FLY, which brings together and builds on the most successful features of previous boats. Universal and recognizable, but also unique and personal: charisma means many details and nuances that anyone can relate to. The charisma of a boat with a strong personality inspiring enthusiasm and energy, attracting others with its prestige, but most importantly, a boat that invites the owner to experience its charm and discover their reason why it is everything they had always wanted.

Boundless views and uncompromised comfort

The strong personality of Absolute 56 FLY is expressed in its striking lines as well as in the interiors, featuring comfortable, refined and highly practical spaces.

Numerous storage areas make life easier and comfortable on board, while keeping things tidy in the sleeping area as well as in the living area. There is also a fully equipped, modernly designed kitchen and an area for a washer-dryer in the lower deck hall way to make sure you will never miss being at home.

The sleeping area will provide plenty of room to sleep in comfort. The full-beam owner’s cabin in the bow is designed to ensure privacy and convenience, as well as outstanding views through large windows. Its modern interiors are embellished with sophisticated features, transparent details between the cabin and bathroom, and textural contrasts. As spacious as a second owner’s cabin, the VIP cabin is also full beam. A comfortable third cabin with single beds and a double crew cabin complete the sleeping area. With no inner steps, all lower deck cabins make the most of heights and volumes, with surprisingly large windows for unrivalled morning views, with plenty of natural light flooding in.

Natural light and beautiful views are a highlight to enjoy in every area of the boat: the boundaries between the boat and the sea are blurred by transparent panels in the cockpit area, as well as by the open railing, offering excellent visibility from the main deck. The visual experience becomes even more immersive thanks to large electric windows, to enjoy the view even when you are comfortably seated in the saloon, while also bringing some fresh air in.

Generation 2022: a responsible, versatile range

With a focus on versatility, living space, as well as environmental sustainability, 56 FLY proudly continues the revolution that started with the Flybridge range Generation 2022. The solar panels built into the hard top become a valuable resource providing superior comfort when you stop in your favorite cove, reducing noise, vibrations, emissions and consumption, and ensuring greater autonomy with a diesel generator.

Thanks to the side door next to the console panel and a third helm station in the cockpit, boat steering is comfortable, efficient and safe, with superior helm station ergonomics. The high standards of Absolute dashboards are known to ensure unparalleled visibility, complete and easily accessible equipment, as well as cozy seating for both offshore sailing and maneuvering in the port.

Enjoy a comfortable seafront sundeck and sofa in the bow for a relaxing day at sea, or as spacious flybridge, just as on larger boats. The cockpit is roomy and with no fixed elements, so it can be fitted with modular furnishings according to your taste and needs.
