SPECIFICATIONS

Overview

Introducing the all-new Dutch American Iconic 53DA. This new offering from Dutch American offers an unmatched combination of design, performance and accommodation. The aluminum hull designed and built by award winning Dutch builder Steeler is powered by quad Mercury V10 600HP outboards. The Dutch American 53DA gives a rock solid feel with it's aluminum hull and superstructure and the quad Mercury's give a top speed of over 50 mph.

The boat has a twin cabin single-head layout with a lounge and dining area. The lounge becomes an open air atrium with the push of a button as the retractable glass roof opens. The helm and cockpit offer comfort and climate control while the hardtop is in the closed position but again with the push of a button the hardtop opens up giving you the wind in the hair feeling of an open dayboat.

The Dutch American Iconic 53DA offers a fuel capacity of 765 gallons and with a cruising speed of 30 knots gives you range of approximately 300 nautical miles at cruise.
