SPECIFICATIONS

Overview

The all new GALATHEA 65 catamaran by Fountaine Pajot is the largest cruising vessel ever built by the oldest and most successful manufacturer of catamarans. Similar to her smaller sisters the Galathea 65 catamaran is built using isophthalic resins in an all-infusion composite process, assuring the lightest yet strongest multihull-construction method. The interior of this well appointed vessel is expertly crafted with high gloss wood veneers and top quality systems yet the Galathea catamaran is a long range boat with a very good turn of performance. Because of her expanded waterline length, powerful sailplan and relatively light weight this cat will satisfy liveaboard sailors and cruisers who want to minimize their exposure time at sea. The Galathea 65 catamaran features double semi-flybridge cockpits a beautifully shaped composite-bimini that is visually integrated into the sleek and low saloon house. The expansive main deck and outside cockpit are on the same level and the innovative aft platform serves as a sundeck and dinghy storage. This stunning Galathea 65 catamaran by Fountaine Pajot can be ordered with different layout plans to suit clients' programs: Please call us to discuss your requirements.
