Description

Tiara has made a lot of great boats over the years, but this one has to be one of their best. She has the right combination of features to make her an ideal cruising, fishing, diving, swimming and entertaining cruiser. Her 13'3" beam makes her feel like a much larger vessel and her wide open cockpit with drop down aft seat creates an ideal fishing platform for a serious fisherman. She also has a cabin that is open and spacious which will more than satisfy the rest of the family. Her beautiful teak and holly cabin sole and rich dark blue leather U-shaped couch live up to Tiara's high quality standards. This vessel has been well maintained and her low hour twin diesels will provide an economical platform in these times of high fuel costs. This is a must see boat for anyone looking for a quality 35' Tiara.

Accommodations

You step down three (3) teak and holly steps through a center line Plexiglas sliding hatch to enter the cabin. There is a luxurious leather U-shaped dinette to starboard which will convert to a double bed and the seat back lifts to create a bunk for an additional sleeping area. To port, is a roomy head and going forward is the galley. She is fitted with a unique refrigerator with a separate freezer that you can actually put something in (see photos), a glass top 2-burner stove, microwave and lots of storage. The master stateroom is forward and has a centerline queen size berth with lots of storage below and cedar lined closets. The entire cabin sole is done in teak and holly to create a rich warm feeling, not found in other vessels of this size.

Electronics and Navigational Equipment

She has all the toys including:

- New raymarine C120, the unit has GPS Chartplotter, ColorDepth Sounder all in one, Radar can be added
- Raytheon 650 Autopilot
- New Raymarine VHF
- New Clarion M475 with wireless remote stereo system
- New Pioneer 2-way water-resistant speakers
- New speakers in the cabin and two speakers in the cockpit

*****This Unit is also set up with Sirius Satellite System*****

Electrical System

She is equipped with a 30 amp shore power, a 50' power cord and cable and phone hook-up. There is a 5kW Westerbeke generator with 1,060 hours, battery charger and five (5) batteries.

Deck Equipment

On the bow is a molded in fiberglass anchor pulpit and a new (2007) windlass. She has good walkways on both sides for easy access to the cockpit. She has a custom sunscreen for the windshield and new white canvas (2006) including an aft cover that encloses the cockpit. The cockpit is spacious with seating for eight (8) in comfort. She is also fitted with a transom door and swim platform for easy access to the water for diving and swimming. The aft section is wide open, thanks to a drop down aft seating area that disappears in the transom which makes her great for fishing and entertaining.

Engine /Mechanical Equipment

Tiara knows how to do it right!One of the biggest problems on smaller twin engine express boats is engine access. They have solved the problem by designing the entire forward cockpit sole to raise at the touch of a button to allow total access to the entire engine room. Once you see this system, you will never own another cramped engine room. The Cummins 370hp diesels are the right engines in the right boat providing economy, speed and dependability. She is also fitted with a oil transfer system that makes maintaining her easy.

Exclusions

Owner's personal belongings.
