SPECIFICATIONS

Overview

Great shadow vessel or conversion yacht platform. Full ocean vessel that recently began a refit and is ready for full customization. This large vessel works well to allow for a massive toy garage and helicopter hanger if converted to a shadow vessel. If used as a conversion yacht the beam allows for large interior spaces as the volume of the ship is well over that of a yacht of similar length. The vessel's deep draft, stable design, and high ceilings are complimented by good exterior aesthetics that works well as a base platform in an expedition type conversion. An Owner's imagination is all that is needed to apply this vessel for his own uses. It can be operated as a stand-alone SUV-style expedition vessel capable of world exploration. In this capacity, its rugged exterior will serve well in ports where a pristine yacht exterior might draw unwanted attention.

This vessel costs less than half of what a current conversion would cost.

As this is a US hull- the purchase and conversion at a US shipyard for a non-US buyer who plans to export the finished vessel - the vessel purchase and is conversion costs can qualify for US Export Import 85% finance at very advantageous rates. Call for a consultation on using this financing.

Basic Information

Category: Motor Yacht

Sub Category: Expedition

Model Year: 2014

Year Built: 1979

Refit Year: 2014
