### BRITISH REGISTRY

### NOT FOR SALE TO US RESIDENTS WHILE IN US WATERS

***OFFERS WELCOME See the List of Service Work Done in 2013 at Rolly Marine Service in the Descriptions Section***

"Sheriff" is owned by the original owner and is a meticulously maintained 92' "Elite Series" Hatteras Cockpit Motor Yacht and is maintained by the original captain & crew. The "Sheriff" has a high gloss maple interior featuring a full bar located on centerline with a sliding window allowing you to take full use of its amenities inside in the air conditioning or outside on the aft deck. Forward you'll find twin lounges focused on a full entertainment center. The country style galley is fully equipped with table and six chairs. Below decks you'll find a full beam master stateroom along with two guest suites, and forward of the galley additional guest accommodations. Aft of the engine room you'll find two crew staterooms, each with their own private head.

# DETAILED INFORMATION

---

## Overview

---

"Sheriff" is the first of the Elite series of Motor Yachts offered by Hatteras. This is one of the few Cockpit Motor yachts built by Hatteras and offers the ultimate cruising experience. Thanks to the full beam salon, you'll find a truly classic design with top-quality components. A rich high gloss maple interior wood with custom furnishings provides a casual, relaxing atmosphere. A center line bar provides a convenient pass through to the aft deck and allowing an ease of entertaining both inside the salon and on the aft deck. Forward a fully equipped country galley provides eat in dining for eight. Just forward of the galley is access to guest accommodations featuring v-berths to sleep three with their own private head and aft, two crew staterooms each with their own private head. Aft, you'll find a full beam master stateroom with two guest quarters.

## Exterior

---

This boat is a perfect blend of performance and style with focus towards extended cruising. It's solid glass hull bottom ensures its integrity. It is also one of the few boats today that provides a rich coat of protective polyurethane paint producing a hard outer surface that provides protection from those gel-coated porous surfaces found within other brands. It also is easier to repair and match than a gelcoat vessel. Isophthalic gelcoat, interior layer, black Isophthalic gelcoat, exterior layer, white Blister-resistant vinyl ester resin in hull skin coat Topside and superstructure, polyurethane coating Polymer/copper based anti-fouling bottom paint Boot stripe, polyurethane coating Decks, non-skid surface, polyurethane paint with polymeric beads

## Electrical

---

Hatteras is known for their attention to detail, and wiring is one of their strongest points. All wiring is tin-coated and sealed in an insulation jacket. Wiring harnesses are tie-wrapped every 6 inches and secured every 18 inches with easy access. Wiring is color-coded and numbered at both terminal ends, and is well documented in the owner's manual. Go one step further to find their attention to detail in placement of dual light switches on both ends of the salon and companionway for convenience. Something you'll miss on other brands. 24 volt banks of heavy duty, 12 volt marine batteries 240 volt automatic battery chargers Battery paralleling system with switch at bridge and pilothouse control consoles Two 240 volt, 100 amp, retractable, transformer connected shoreline cords AC and DC light fixtures AC duplex outlets Battery control panel with fuses and isolation switches DC distribution panel with magnetic circuit breakers and battery condition meter. DC distribution panel with magnetic circuit breakers (Engine compartment) DC electronics panel with magnetic circuit breakers AC distribution panel with thermal/magnetic circuit breakers AC switching panel with bolt meter, ammeter frequency meters, generator

start/stop controls and interlock selector breakers Systems monitor with visual and audible signals for engine and gears, steering cooling pump, high bilge water, fire warning in engine compartment, fire extinguisher discharge, and AC power loss Navigation lights Ground fault protection on AC receptacles and lighting circuits Chilled water air conditioning system SSB radio ground screen laminated in cabin top Telephone/CATV inlets Telephone and CATV shoreline cords, one each Omni directional TV antenna

---

## Engine Compartment and Bilges

---

The engine room is neatly designed and maintained with easy access to equipment.

Attention to detail is evident in the many systems as you'll find rudder shelves made of pultruded fiberglass which is incredibly dense, strong and stiff material that will not corrode, rot, flex or break under strenuous use. Simply look at the size of the running gear and pay special attention to the duplicated systems throughout the boat. DC enclosed lights AC enclosed fluorescent lights DC bilge blowers Twin diesel, freshwater cooled main engines with marine gears, trolling valves, neutral interlocks, hour meters, alternators, fuel filters, sea water strainers and exhaust silencers Water cooled exhaust system Two 35 kw freshwater cooled diesel generators with seawater strainer, remote start, hour meter, water lift muffler and sound enclosure Fuel transfer system with transfer manifold, fuel transfer pumps/water separator filter and flow meter Fixed fire extinguisher system for engine compartment with automatic and remote manual controls Water fill hose for engines and generators Automatic, electric bilge pumps Dockside water inlet with pressure regulating valve. Ball valves on all underwater through hull fittings with electrical bonding throughout AC air compressor with hose, nozzles and air tank UL approved fiberglass reinforced fuel tanks Pressurized freshwater system with two 50 gallon electric water heaters Engine driven bilge pump, starboard engine Macerator pump plumbed to holding tank Sewage holding tank plumbed for dockside discharge Fuel filters/water separators for generators Duplex fuel filters/water separators with bypass manifold for engines Dripless rudder and shaft seals AC engine compartment exhaust blower Monitoring consoles for main engines include all necessary gauges Electrical panels Oil changing system for engines, marine gears, generators with storage tank, selector manifold and dockside connection Fuel priming pumps for main engines and generators Vinyl deck mat between engines Two AC circulating fans Grab rails Work Bench AC/DC light fixtures AC duplex outlets Door to cockpit Door to engine compartment

---

## Hardware and Miscellaneous

---

This boat is designed with longevity in mind as all stanchions and cleats are through bolted to aluminum backing plates that are encapsulated into solid fiberglass sections of the superstructure. Molded fiberglass UL approved tanks are placed between the stringers and glassed in place. All fuel tanks are constructed with a fire-retardant resin, and exposed surfaces are coated with a fire-retardant intumescent paint. Bulkheads and stringers are fully tabbed into the hull itself and the stringer system is built of fiberglass stringer system to provide for stiff

longitudinal support with no fear of water intrusion. All hardware chrome on brass or stainless steel Transom reboarding steps Sea stairs with storage brackets Swim deck with centerline steps to cockpit 260 lb anchor with line and deck hawse pipe Maxwell BWC 4500 windlass with 300' chain Hydraulic stabilizers Bow thruster, 16" 45 hp hydraulic Six springline cleats Two stern cleats Bow cleats and chocks with chafing strips Bow rails, 1 1/2" stainless steel Remote controlled searchlight Three freshwater washdown quick disconnect outlets, foredeck, cockpit and boat deck Fog Bell Dual air horn Zincs on rudders and shafts Bow staff with pennant Life jacks and life ring Portable fire extinguishers Bronze manganese struts Rudders, manganese bronze Propellers, Nibral high performance Stainless steel propeller shafts Foredeck seat with storage

## Aft Deck/Cockpit

---

On either side of aft deck is bench seating with twin tables. In the middle is a large retractable table that seats eight. There are many amenities that sets this boat apart from her sisterships, to include built-in cabinets and refrigeration. A center stairwell leads down to the open cockpit provide additional storage as well as a fighting chair and ease of access to the engine room and aft crew accommodations. Doors to salon Overhead lighting under boat deck overhang Stereo speakers with volume control Molded fiberglass cockpit Hatches to lazarette Scuppers in cockpit Rails aft with gate to swim deck Fiberglass lounge seat with storage and cushions Storage cabinets Shorewater connections with pressure reducing valves Door and hatch to utility room Freshwater washdown outlet with hose connection Steps, to aft deck Ladder to flying bridge

## Salon

---

Passing through to the salon, you'll enter through two doors on either side of the fully equipped U-shaped custom salon bar with three bar stools. This bar is located on centerline and allows for easy serving through to the aft deck through a sliding window. This full beam salon showcases a high gloss maple interior wood with with large frameless windows. Forward twin custom built sofas provide ample seating and are situated for full viewing of the entertainment center featuring a 42" plasma TV. Aft in the salon is a gaming table which seats four.

Just off the companionway you'll find a day head conveniently located and hidden from view as port and starboard companionways accessomg the side decks, forward galley and pilothouse and suites below. Carpet Maple wood paneling Vinyl headliner Fixed frameless windows with tinted safety glass Entertainment center with 42" plasma TV and stereo receiver Stereo Speakers Custom centerline bar with three bar stools AC and DC light fixtures Twin salon doors Custom furnishings Game table and four chairs Port and Starboard Deckhouse Companionways: Day Head Hanging locker for foul weather gear Stairwell to master and guest accommodations Starboard steps to pilothouse Door to galley Doors to port and starboard side decks Door to pantry Door to electronics locker

---
